

## **An appeal to asylum status holders and hospitable**

***Stap in: 'een goed verhaal'***

***Music and singing project for asylum status holders and locals***

Get to know each other in eight evenings through music, singing, instruments and storytelling. We will be telling each other funny anecdotes or emotional recollections, no matter the language used; it will be translated for everyone. The songs that we will be singing will mainly come from the home countries of the participants. As conclusion we will be giving a festive performance together with professional musicians.

If you play an instrument, please do take it with you!

Everyone has a voice to tell stories with, no matter the language, and everyone can (learn to) sing.

Every time we have a gathering we will start with a meal. Everyone takes something with them, big or small, which we can share with each other until we get to know each other.
